Education

Bhagwan Parshuram Institute of Technology (BPIT) Aug 2025 – May 2029
B.Tech, Computer Science | ***CGPA: 8.77/10*** *Delhi*

Skills

Programming Languages: C++, Python, JavaScript, Java, C
Frontend: React.js, HTML, CSS, Tailwind CSS
Backend: Node.js, Express.js, Django, JWT Authentication
Databases: MongoDB, MySQL
Cloud & DevOps:Git, GitHub, Vercel, Render
Data-Visualization: Numpy, Pandas, Matplotlib, Seaborn
Core CS: Data Structures & Algorithms, Object-Oriented Programming

Experience

Deloitte Austrailia – Data Analytics Job Stimulation (Forage) | 2026
(Virtual Experience)

- Completed a virtual job simulation with Deloitte focused on data analysis and forensic technology, gaining hands-on exposure to real-world consulting workflows.
- Analyzed data sets to identify patterns and anomalies, applying forensic technology techniques used in Deloitte's forensic practice.
- Interpreted findings and translated technical results into actionable insights, simulating client-facing deliverables.
- Demonstrated proficiency in data analysis tools and methodologies within a structured, industry-standard simulation environment.

Projects

ScaleGaurd | |
C++20, Redis, Crow, Docker, CMake, Ninja, Asio 2026

- **Developed** a distributed rate limiting service supporting **Token Bucket and Fixed Window algorithms** with Redis-backed state management and REST APIs.
- **I**mplemented thread-safe concurrent request handling using mutexes, shared mutexes, locks, and atomics, with metrics collection for allowed and rejected requests.
- **C**ontainerized the service with Docker Compose and added automated CI/CD using GitHub Actions for builds, unit testing, and pull-request validation.

Finpilot - AI powered personal financial assistance | |
React.js, Node.js, Express.js, MongoDB, JavaScript, REST APIs 2026

- **Developed** a full-stack personal finance platform for expense tracking, budgeting, and financial analytics.
- Interactive dashboards to visualize income, expenses, and category-wise spending trends.
- Integrated AI-powered financial insights to provide personalized budgeting recommendations.
- Implemented secure authentication, CRUD operations, and responsive UI for seamless user experience.

CSRConnect-CSR and ESG Impact Intelligence Platform | |
React.js, Node.js, Express.js, PostgreSQL, JWT, Cloudinary, Recharts, React Leaflet 2026

- **Created** a full-stack CSR ESG impact platform with role-based workflows for **Admins, Companies, NGOs, and public users.**
- **Implemented** CSR project management, NGO verification, progress tracking, ESG/SDG analytics, and geographic impact visualization with **React, Node.js, Express.js, and PostgreSQL.**
- **Built** a secure JWT-based authentication and integrated **Cloudinary** for managing project images, reports, and supporting documents.

Achievements

- **Shortlisted among top 15 teams in HackWithSanchaar 3.0 hackathon.**.
- **Shortlisted among 35 students in NSQP 7.0 competition and got opportunity for a DRDO visit.** .
- Got **3rd position** among **100 + teams** at **Code Influence 2.O Hackathon.**.
- Won Best Freshers Team tag in coding contest by college society and overall secured a second position.
